With electrifying performances, thrilling competitions, mesmerizing celebrity nights, and an unforgettable fusion of music, dance, and entertainment, BITOTSAV 2025 was a festival where culture met celebration.

Our Theme: **हस्ताक्षर**: Celebrating the Legends

For Bitotsav 2025, the theme was **हस्ताक्षर**: Celebrating the Legends, a tribute to the individuals who have left an indelible mark on history. The word **हस्ताक्षर** translates to "signature" in English, symbolizing more than just an autograph; it represents the enduring legacy of great minds, visionaries, and pioneers. Their contributions—be it in science, art, literature, music, politics, or social movements—have shaped the world as we know it today. This theme is a celebration of their efforts, sacrifices, and the impact they have had on generations.

At its core, **हस्ताक्षर** was about honoring the legends—artists, writers, scientists, musicians, freedom fighters, and changemakers—who have transformed society through their work. Their signatures are not merely names inscribed on paper but are etched into history through their deeds and accomplishments. By recognizing their efforts, we aim to instill a sense of pride and motivation in students, inspiring them to carve their own paths and leave their own mark on the world.

BIT Mesra has been home to some of the most brilliant minds who have made remarkable contributions to their respective fields. Over the decades, its alumni have gone on to become CEOs, entrepreneurs, researchers, and thought leaders who have left an indelible mark on society. Some notable names include Karan Bajaj (Founder of WhiteHat Jr.), Amit Chaudhary (Co-founder and COO of Lenskart), Sanjay Nayak (CEO of Tejas Networks), Deven Sharma (Former President of Standard & Poor's), Shree K. Nayar (T. C. Chang Professor of Computer Science at Columbia University), Ashish Vaswani (AI researcher and co-author of the seminal paper "Attention Is All You Need"), V. Vaidyanathan (CEO of IDFC First Bank) and many more.

These distinguished alumni have left their **हस्ताक्षर** on history through groundbreaking work, leadership, and innovation. Their journeys serve as an inspiration, motivating students to push boundaries and strive for excellence. Beyond being a tribute, this theme also serves as a source of inspiration for the youth.

Our Social Theme: **महानायकों की धरती** : Jharkhand

Jharkhand is not just a land of minerals and forests; it is the birthplace of countless heroes who shaped history with their courage, sacrifice, and resilience.

From Birsa Munda, Sidho-Kanhu, Tilka Manjhi, to Nilambar-Pitambar, the fearless revolutionaries who shook British rule, Jharkhand has always been a land of warriors and leaders.

Even today, the state continues to produce icons who are making a mark in various fields. In sports, Mahendra Singh Dhoni led India to historic victories, while Nikki Pradhan, Salima Tete, and Deepika Kumari are making India proud on the international stage.

In music and culture, Padma Shri Ramdayal Munda brought Jharkhand's tribal traditions to national prominence, and Madhu Mansoori Hansda preserved the region's folk heritage through his soulful melodies.

In social and political leadership, Jaipal Singh Munda not only won an Olympic gold in hockey but also became a powerful voice for tribal rights in India's Constituent Assembly.

Bitotsav 2025 proudly celebrated Jharkhand's rich heritage—its warriors, its culture, and its legends. Join us in this grand festival where we honor the spirit of this extraordinary land.

Description: Takeshi's Castle at Bitotsav '25 was an action-packed, high-energy event that kept participants and spectators alike on their toes throughout the competition. The event featured four thrilling rounds, each with its own unique challenge. In Round 1, One Way Out, teams had to choose the correct door based on a clue to advance, while the wrong choices led to elimination. Round 2, Sync and Sprint, tested players' coordination as they formed shape-based groups and rushed to a designated spot, with anyone left without a group being eliminated. Round 3, Roll to Win, had participants race on skateboards, using only their hands to propel themselves and stopping as close as possible to the finish line without crossing it. Finally, in Round 4, Blind Quest, a blindfolded player had to navigate a maze, guided solely by their teammate's verbal instructions.

Day Events

Name of Event: Flight Simulation
Category: Formal
Theme: Technical
Date: 23-03-2025
Time: 9 AM - 12 PM
Venue: 231
Club: Aerospace Society

Description: Flight Stimulation gave participants the exhilarating opportunity to experience the thrill of piloting an aircraft. They navigated through takeoff, course navigation, and landing, all within a flight simulator that replicated real-world aviation challenges. In the Takeoff Phase, pilots had to maintain a steady climb, avoiding deviations from the runway. The Navigation Course tested their ability to follow a precise route, with penalties for missing waypoints or encountering obstacles like buildings and mountains. The Precision Landing phase required a perfect touchdown within the designated zone, with deductions for any mistakes such as rough landings or veering off course.

Description: Electropoly was a two-phase event where players combined business strategy and electronics skills. In Phase 1: Quick-Fire Business Game, it was a Monopoly-style game focused on earning electronic components instead of properties. Players aimed to buy the components needed to complete their circuit in Phase 2: Circuit Race. Teams raced to build and troubleshoot a working circuit using the components they earned, with random "power cuts" or faulty components introduced to increase the challenge. The first team to complete their circuit won, with bonus points for creativity in modifying or improving the design.

Description: Pitstop Pursuit was an exciting event combining strategy and racing. In Round 1, teams participated in a high-stakes auction, bidding virtual points on essential car components like engines, tires, aerodynamics, and nitro boosts. Strategic bidding was crucial, as overspending on one part could weaken others. The top teams with the highest total points advanced to Round 2, where they entered a racing simulation. The setup they chose in the auction would affect their lap times, with the fastest lap winning and prizes awarded to the top three teams.
