

RESEARCH COLLOQUIUM

14th March 2026

Organized By

Birla Institute of Technology,
Mesra,
Patna Campus
Patna, Bihar 800014

About BIT Patna

Birla Institute of Technology (BIT) Patna, established in 2006, is an extension campus of BIT Mesra, Ranchi. It offers a range of undergraduate, post graduate and doctoral programs in engineering and management studies.

The campus provides facilities such as a central library, computer labs, health services, gym, auditorium, guest house and hostel accommodations for both boys and girls.

Research at BIT Patna

The institute is actively pursuing advanced research programmes which are focused towards advancement of human knowledge and development of society. Research efforts are directed towards solving complex problems, delivering social benefits, and driving economic prosperity, nationally as well as globally. The Dean RIE is responsible for the development and implementation of research strategy of the institute. It assists departments to formulate strategic planning for research and executing the plan. It Co-ordinates academic management of the research of the institute, encourages faculty and departments to increase research grant from different funding organization in India, encourages national and international Collaborations.

About the Event

Research and Development in various fields of Management, Science and Technology is the key to the sustenance of human life on this planet. It is a time, when coordinated regional, national, and international effort is required for a resilient recovery. BIT, Mesra, Patna Campus cannot sit back from this endeavor, and thus, here we are with this initiative of organizing the Research Colloquium on 14th March 2026. The institute has been leading its research activities in many emerging and classical fields of management, science and engineering. Research scholars with their mentors have been contributing towards expanding scientific knowledge and national progress. Therefore, this program is oriented towards showcasing their research activities through oral and poster presentations. This would help them in recognizing missing gaps, feedback, and opportunities for further collaborative research. This would also be instrumental in motivating the research talents of the institute. Let's collaborate and share our thoughts
