

7-Day Workshop on Advanced Analytical Instrumentation Techniques for Characterization

(1st-7th June 2026)

Organized by Department of Chemistry,
Birla Institute of Technology, Mesra, Ranchi

Designed for:

Hands-on training for the identification and characterization of synthesized materials.

Program Highlights:

- UV Visible Spectroscopy
- FTIR Spectroscopy
- Fluorescence Spectroscopy
- NMR Spectroscopy
- Mass Spectrometry

Essential for: Research and Industrial applications

Who Can Apply?

- Undergraduate & Postgraduate Students
- Research Scholars
- Industry Professionals
- (First come, first served; 20 seats only)

How to apply?

**Payment
link**

**Registration
link**

Last Date of Application: 25 May 2026

Candidates will receive a demo video, study materials, a problem-solving material set, and a course completion certificate.
