SECTION –A

Instructions

Birla Institute of Technology, Mesra, Ranchi (Employer), invites the tenders for the Furnishing work & Kitchen Equipment for International Guest House as detailed in the table given below:

Brief Description of works	Period of completion
KITCHEN EQUIPMENT FOR INTERNATIONAL GUEST HOUSE	2.5 Months from the date of Works Order.

1) Tender forms will only be given to the contractors fulfilling the qualification norms & will again be verified on receiving the tenders.

2) To assist you in the preparation of your tender, we are enclosing the following:

- a. Instructions & terms and conditions.
- b. Draft Contact Agreement format, which will be used for finalizing the agreement for this contract.
- c. Specifications, Scope of Work and Technical Details
- d. Detailed Bill of Quantities/Drawings

3) Submission of tenders

- a) One bidder can submit only one Tender. Submission of more than one Tender shall automatically lead to disqualification.
- b) The tender should be submitted in 2 sealed envelopes, addressed to The Registrar, Birla Institute of Technology, Mesra Ranchi.

One envelop, marked as “Technical Bid” will carry all the qualification documents, bidders covering letter mentioning list of documents & D. D. s for Bid Application Fee as well as Bid Security, if any.

The other envelop marked as “Price Bid” will carry the price bid and the original tender with signature & stamp on each & every page.

These two envelops should be sealed again in one big envelope.

All The envelopes will also bear the following identification :-

Tender for **“KITCHEN EQUIPMENT FOR INTERNATIONAL GUEST HOUSE”**

☐ Name & Address of the bidder.

- c) Tenders must be received in the office of the owner at above given address, not later than the time and date specified.
- d) Any tenders received after the deadline for submission, will be rejected & no communication in this regard will be entertained.

4) EMD/Bid Security:

- a. Tender submitted without requisite Earnest Money/Bid Security may be liable to rejection.
- b. If before expiry of the validity period of his Tender / offer, the contractor amends his quoted rates or tender/ offer making them unacceptable to BIT Mesra and / or withdraws his tender / offer, the Earnest Money deposited shall be liable to forfeiture at the option of BIT Mesra.
- c. The Earnest Money of accepted Tender / offer shall be retained by BIT Mesra as part of the Security Deposit, @ 5% of order value.
- d. Balance security for works contract shall be recovered by deduction from all progressive Bill (including final Bill) @ 5% of the gross value of work in each such bill which will be released to the Vendor upon expiry of defect liability period of One Year.
- e. No interest shall be paid by the trustees to the Tenderer / Contractor on the amount of Earnest Money / Security Deposit held by BIT Mesra, at any stage.

5) Price

- a) The contract shall be for the complete works as described in the bill of quantities, drawing and technical specifications, corrections, if any, shall be made by crossing out and initialing.
- b) VAT & services tax is to be given separately and all duties, taxes and other levies, shall be included in the total price.
- c) The rates quoted shall be fixed for the duration of the contract and shall not be subject to adjustment on any account.
- d) The rates should be quoted in Indian Rupees.
- e) You shall bear all costs associated with the preparation and submission of this tender, and the owner will in no case be responsible & liable for those costs.
- f) On your own responsibility and risk you are encouraged to visit and examine the site of works and its surroundings and obtain all information that may be necessary for preparing the tender.

6) Terms of Payment:

The payment terms shall be on mutually agreed terms. The payment shall be made in Indian Rupees.

- a. No Sum shall be considered as earned by or due to the Contractor in respect of the work till final and satisfactory completion thereof and until a certificate of completion has been given by the Supervising Engineer of BIT Mesra. On account payments, if any, made prior to issue of the certificate, shall all be treated as mere advances, which shall stand recoverable in full or in part, if the Engineer so decides in the context of Contractor's unfulfilled contract condition, if any.
- b. All payments shall be made to the Contractor on the basis of measurement of actual work done, as recorded in the measurement books and at accepted tendered or at agreed rates, as the case may be except as otherwise provided in the contract and when the Engineer

decided any other rate for change in the scope of work or omission, if any, on the part of the Contractor.

- c. **E-Payment:** All payments, BIT Mesra prefers to make Electronic Transfers (ECS). Vendors are advised to give complete details of Bank Account for ECS transfers.

7) Validity

Tender shall remain valid not less than 45 days after the deadline date specified for submission.

8) Opening of Tenders

Tenders will be opened in the presence of consultants & owners.

- 3) Information relating the evaluation & recommendations for the award of work shall not be** disclosed to any persons not officially concerned with the process, until the work is awarded to most responsive bidder.

9) Evaluation

The owner will evaluate & compare the tenders determined to be substantially responsive i.e. which

- a) Meet the technical qualification criteria specified
- b) Are properly signed
- c) Conform to the terms and conditions, specification & drawings without any deviations.

10) Award of contract

The Employer will select the bidder whose tender has been determined to be substantially responsive and who meets the specified qualification criteria.

Notwithstanding above, the Employer reserves the right to accept or reject any tender, and/ or to cancel the entire process and reject all the tenders, at any time prior to the award of work, without thereby incurring any liability or any obligation.

11) Period of Maintenance:

The "Period of Maintenance" for the work is **Twelve months** from the date of taking over possession. During the period of maintenance; the contractor will be responsible for rectifying any defects in working. This will be done by the contractor at his own expenses.

12) Special Conditions of Contract

1. Technical data / detail & specifications if not tally, the same are to be clarified with the Consultants.
2. The client reserves the option to allot the work partly or totally to single or different Contractors. The Client also reserves the right to supply some of the material. The scope of work for such items will be limited to erection only.
3. The Client / Consultants reserve the right to call explanations from any bidder regarding the calculations / clarifications on any details. They may also visit the office of the bidder / various works carried out by him. The necessary cooperation in this regard is envisaged from the bidder.
4. The bill of quantities indicated is approximate & are liable to change at the discretion of the client / Consultants.
5. The Contractor is responsible for the due & proper execution of all the works, terms & conditions stipulated under this Contract. He must explain the designs & satisfy himself of the feasibility.

The contractor will be completely responsible for all kind of safety, security & structural stability at site & of the work executed as well as under execution. The responsibility of guarantying the inside conditions lies with the Contractor.

6. The Contractor shall make no changes in the tender form or in the specifications & schedule. Contractor may however submit alternative proposals, in separate enclosures, indicating any variation whichever they feel is beneficial. Calculations, salient features, advantages, economics, layout shall back the same. Acceptance of the alternate proposal & rests will be the exclusive right of the client & Consultants.
7. The Consultant / their representatives shall have access to the workshop /Manufacturing facilities of the successful Contractor so as to assure themselves of the quality of the material & workmanship.
8. The successful Contractor shall submit a detailed bar chart within 7 days of award of work.
9. The measurement given in drawing is subject to verification at site. In case of any discrepancy, the same shall be brought to the notice of both, the engineer in charge & Consultants for the decision.
10. In order to complete the work, within the time limit, the contractor may have to work in more than one shift.
11. The contractor shall make their own arrangements for security of their materials / tools etc.
12. In case of not availability of specified materials in the market, the contractor may substitute by equivalent materials of same quality & technical properties, after duly approved by the Consultant.

13. Client / Consultants reserve the right to split the items and scope of work before awarding the contract without assigning any reason thereof.
14. In case of any controversy, the decision of the Consultant shall be final & binding on contractor.
15. Verbal instructions given by the Consultant, if any, will be confirmed in writing by the contractor within 7 days & before execution thereof.
16. At least one engineer, of the contractor, capable of understanding all the technical points & act accordingly, should be available on site all the time.
17. The contractor along with his technical staff should be present at site at the time of site-visit of the Consultants & whenever needed.

By submitting the tender, you agree & accept that the owner reserves the right to allocate the work to most responsive bidder.

We look forward to receiving your tender and thank you for your interest in this project.

Yours Sincerely,

Sd/-
Birla Institute of Technology, Mesra, Ranchi, Jharkhand

ARTICLES OF AGREEMENT

1) This deed of agreement is made in the form of agreement on _____ day _____ month _____ 201_____, between (the referred to as the **first party**) and _____ (Name of the contractor), S/O _____ resident of _____ (hereinafter referred to as the **second party**), to execute the work of construction of _____ (hereinafter referred to as works) on the following terms & conditions.

2) Cost of contract

The total cost of the works (hereinafter referred to as the "total cost") is Rs. _____ as reflected in Annexure -1.

3) Payments under its contract:

Payments to the second party for the work will be released by the First party in the following manner:-

Mobilization advance	:	10% of the order value. This will be adjusted in first 2 RA bills.
On pro-rata basis as per the R. A. bill(s) of the contractor. Payable amount in each R. A. bill should not be less than Rs. 5,00,000	:	As per the certified bill of the contractor based on the measurements along with certification
Final bill On completion of the work & submission of the completion report approved by the consultant.	:	As per the certified bill of the contractor based on the measurements along with certification of completion to the satisfaction

13) Payment will be made by the first party:

- On the second party submitting an invoice for an equivalent amount along with the certified copy of the bill of quantities & measurements;
- On certification of the invoice by the engineer &/ or consultant.
- Payment will be given within 15 days of certification of the RA bills & within 1 month of certification of the final bill.
- Necessary deductions towards taxes, govt. dues, and security deposits will be done at every payment.
- Any delay in completion of the work, without any justified reason, will carry a penalty of 0.5% of order value per week, maximum up to 5%. On exceeding this limit the owner can terminate the work without giving any reason.

14) Notice by Contractor to Engineer

The second party, on the works reaching each stage of construction, issue a notice to the first party or the Engineer nominated by the first party (who is responsible for supervising the contractor, administering the contract, certifying the payment due to the contractor, issuing & valuing variations to the contract, awarding extensions of time etc.) to visit the site for certification of the stage completion. Within 15 days of the receipt of such notice, the first party or the contractor nominated by it, will ensure issue of stage completion certificate after due verification.

15) Completion time

The work should be completed in specified time from the date of this Agreement. In exceptional circumstances, the time period stated in this clause may be extended in writing by mutual consent of both parties.

- 16)** If any of the compensation events mentioned below would prevent the work being completed by the intended completion date, the first party will decide on the intended completion date being extended by a suitable period :

The first party does not give access to the site or a part thereof by the agreed period.

The first party orders a delay or does not issue completed drawing, specifications or instructions for execution of the work on time.

Ground conditions are substantially more adverse than could reasonably have been assumed before issue of letter of from information provided to second party or from visual inspection of the site.

Payments due to the second party, are delayed without reason.

Certification for stage completion of the work is delayed unreasonably.

- 17)** Any willful delay on the part of the second party in completing the project within the stipulated period will render him liable to pay liquidated damages. @ 0.5 % of the total work value per week which will be deducted from payment due to him. The first party may cancel the contract and take recourse to such other action as deemed appropriate, once the total amount of liquidated damages exceeds 5% of the contract amount.

18) Duties & responsibilities of the first party

- a. The first party shall be responsible for providing regular & frequent supervision & guidance to the second party for carrying out the works as per specifications. This will include written guidelines & regular site visit of the authorized personal of the first party, for checking quality of material & construction to ensure that it is as per the norms.
- b. The first party shall provide drawing, specifications & guidelines to the second party for the proposed work.
- c. Possession of the site will be handed over to the second party within two days of signing of the agreement.
- d. The engineer or such other person as may be authorized by the first party shall be meeting once in a week where a second party or his representative at site will submit the latest information including progress report & difficulties if any, in the execution of the work. The whole team may jointly inspect the site on a particular day to take stock of activities.
- e. The engineer shall record his observations/instructions at the time of his site visit in a site register maintained by the second party. The second party will carry out the instructions & promptly rectify any deviations pointed out by the engineer. If the deviations are not rectified, within the time specified in the engineer's notice, the first party as well as the engineer nominated may instruct stoppage & get the work rectified at the cost of the second party.

19) Duties & Responsibility of the second party.

The second party shall:

- a) Take up the works & arrange for its completion within the time period stipulated in clause 5;
- b) Employ suitable skilled persons to carry out the works;
- c) Regularly supervise & monitor the progress of work;
- d) Abide by the technical suggestions / direction of supervisory personal including engineers etc. regarding building construction;
- e) Be responsible for bringing any discrepancy to the notice of the representative of the first party & seek necessary clarification;
- f) Ensure that work is carried out in accordance with specifications, drawing & within the total of the contract amount without any cost escalation;
- g) Keep the first party informed about the progress of work;
- h) Be responsible for all security & watch & warned arrangements at site till handing over of the building to the first party
- i) Maintain necessary insurance against loss of material / cash etc. or workman disability compensation claims of the personal deployed on the works as well as third party claims.
- j) Pay all duties, taxes and other levies payable by construction agencies as per law under the contract (First party will effect deduction from bill in respect of such taxes as may be imposed as may be under the law)

20) Variations / Extra Items

The works shall be carried out by the second party in accordance with the approved drawing & specifications or directives from the engineer in –charge. However if, on account of site condition or any other factors, variations are considered necessary, the following procedure shall be followed:

- a) The second party shall provide engineer with a tender for carrying out the variation when requested to do so by the engineer .The engineer shall assess the tender which shall be given within seven days of the request before the variation is ordered.
- b) If the tender given by second party is unreasonable, the engineer may order the variation & make a change to the contract price which shall be base on engineer's own forecast of the effects of the variation on the contractor's costs.
- c) The second party shall not entitled to additional payment for cost which could have been avoided by giving early warning.

21) Securities

The Performance Security can be released on completion of the work against the bank guarantee of equal amount for the period of 12 months.

22) Termination

- a) The Employer may terminate the contract if the other party causes a fundamental breach of the contract.
- b) Fundamental breach of contract include, but shall not be limited to the following
 - i. The contractor has stopped the work for 7 days & stoppage has not been authorized by the engineer.
 - ii. The contractor has become bankrupt or goes into liquidation other than for a reconstruction or amalgamation;
 - iii. The engineer gives notice that failure to correct a particular defect is a fundamental branch of contact & the contractor fails to correct it within a reasonable period of time determined by the engineer.

- iv. The contractor does not maintain proper safety & security at the site.

Notwithstanding the above, the Employer may term the contract for convenience.
--

If the contract is terminated the contractor shall stop work immediately, make the site safe & secure & leave the site as soon as reasonably possible.
--

23) Payment upon Termination

- a) If the contractor is terminated because of a fundamental breach of contract by the contractor, the engineer shall issue a certificate for the value of the work done less advance payment received up to the date of the issue of the certificate, less than other recoveries due in terms of the contract, less taxes due to be deducted at sources as per applicable law.
- b) If the contract is terminated at the Employer's convenience, the engineer / consultant shall issue a certificate for the value of the work done, the responsible cost of removal of equipment, repatriation of the contractor's personal employed solely on the works & the contractor's costs of protecting & securing the work & less advance payments received up to the date of the certificate, less other recoveries due in terms of the contract & less taxes due to be deducted at source as per applicable law.

24) Dispute settlement

If over the works, any dispute arises between the two parties, relating to any aspects of this Agreement, the parties shall first attempt to settle the dispute through mutual & amicable discussions.

In the event of agreement not being reached, the matter will be referred for arbitration by a sole Arbitrator not below the level of retired Superintending Engineer, PWD to be appointed by the first party. The Arbitration will be conducted in accordance with the Arbitration & Conciliation Act 1996. the decision of the Arbitrator shall be final & binding on both the parties.
