

Value Education Cell

Conducted following activities.

1. Students Induction Programme (SIP)

SIP was conducted during 21 Nov to 09 Dec 2022 in which around 800 newly admitted students actively participated. During the Induction Programme students were introduced to the Ethos and Culture of the Institute and were imparted information on Academic Programs & Academic Activities, Infrastructure Facilities, Examination & Assessment Procedure, Internship & Placement, Entrepreneurship, Career Development & Prospects, Library & Online Resources, Security in Campus, Health & Daily Routine and Various Student Activities.

The students were also exposed to various aspects of personal well-being such as Importance of yoga in mental health and happiness, aspects of uncertainties in life and coping mechanism through self-management, socio-environment sensitiveness, and Importance of extracurricular activities in self-management.

2. Exhibition on Indian Knowledge System

With the office of the Dean of Student affairs organized An Exhibition on Indian Knowledge System (IKS) named "Udbodhan" during 13th to 15th April 2023 in collaboration with G-20 & IKS Cell under Ministry of Education, at AICTE, New Delhi.

The exhibition aimed to make the young minds aware of the scientific rigor and heritage of ancient India, which may excite them to boost their level of contribution in research and development, innovation, entrepreneurship, and assimilation and creation of new knowledge, which may greatly contribute to nation building.

Thematic areas of the exhibition included: Ancient Treaties, Wisdom Through the Ages, Science, Engineering & Technology in IKS, Various Art Forms Linguistics, Astronomy, Architecture & Town Planning, Health Wellness & Psychology, Governance & Public Admin, various Interactive Sessions and Art and Culture of Jharkhand

3. Teaching “MT131: Understanding Harmony”

Value Education Cell implemented teaching of Universal Human Value courses proposed by AICTE. The Board of Studies has approved “MT131: Understanding Harmony” in line with Universal Human Value a 3-credit compulsory course to be taught in 3rd or 4th Semester.

In MO2022 “MT131: Understanding Harmony” was taught in the departments of Bioengineering and Biotechnology, Chemical Engineering, Civil and Environmental Engineering, Electrical and Electronics Engineering, Hotel Management and Catering Technology and Production and Industrial Engineering.

In SP2023 it was taught in departments of Computer Science and Engineering, Electronics and Communication Engineering and Mechanical Engineering.

Some of the very illuminating classes were conducted very early in the morning in front of Institute building in Upper Lawn.

4. Brainstorming Sessions

Conducted a series of Brainstorming sessions from 04th to 16th 2023 to impact the Quality of Teaching-Learning process and the Quality of Teacher-Student interaction. The Brainstorming sessions aimed to help teachers in soul searching and realizing their own roles and responsibilities in the current scenario. A total of 122 faculty members (91: BIT Mesra, 25: Lalpur extension centre and 6 University Polytechnic) participated and contributed towards the aim of the workshop.

5. International Yoga Day Celebration

Celebrated International Yoga Day on 21st June 2023 in association with NSS and NCC of the Institute.

6. Weekly Meetings

Conducts weekly meetings in collaboration with the Vivekanand Study Circle (setup on 12 Jan 2023) with the following aims:

1. Propagate the ideals of Swami Vivekanand to help imbibe strength of mind, knowledge, character and spiritual values in daily living. This will help create awakened citizens.
2. Arouse the infinite vigor of our students to make worthwhile contributions in national development by deeply pursuing Study, Research, Innovation and Entrepreneurship.
3. Help students achieve work life balance to lead a happy life and create a happy society.
