

E: Parent Feedback M. Tech Biotechnology

Feedback from parents of M. Tech Biotechnology student was obtained. Feedback related to various assessment parameters have been shown in Figure 5 indicating that assessment against parameters were adequate. However, partial or no information about assessment parameters has also been marked.

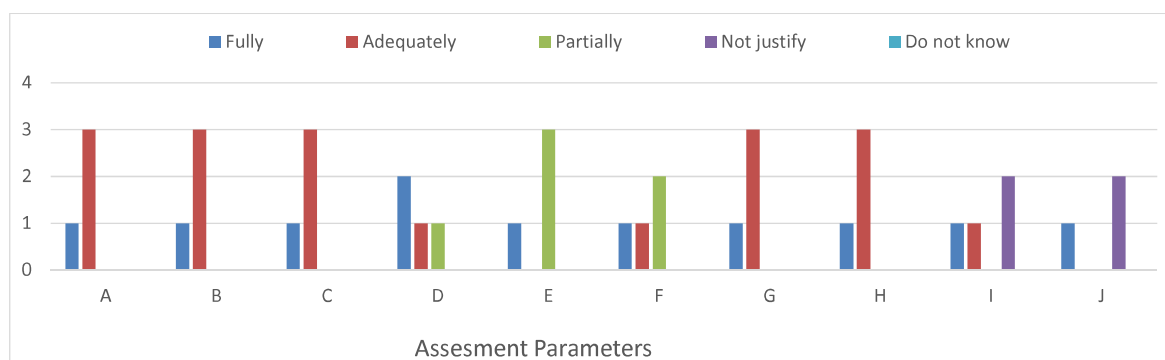

Figure 5: Feedback from M. Tech Biotechnology students indicating the assessment against each parameter. Where Assessment parameters are:

A	Improvement in knowledge
B	Improvement scientific & Engineering skills
C	Understanding of professional, ethical & social responsibilities
D	Improvement in personality
E	Improvement in leadership
F	Improvement in entrepreneurship ability
G	Ability to communicate
H	Ability to cater independent scientific and engineering projects
I	Employability of the student
J	Any othe

Subject: Minutes of Meeting scheduled on 01-05-2018 regarding Feedback received from students, parents and alumni

A departmental meeting of faculties was held on 01-05-2018 where the matter of feedback received from students, parents and alumni was discussed:

- During this meeting received feedback have been examined and assessed and discussed with the faculties so that subject teacher may focus himself in teaching mode in the alignment of PFO and PO
- Also, it was emphasized that we should invite academic and industry experts in related domain to so that employability of the students may be increased.
- As per suggestions additional experiments, talks, seminars on bioinformatics will be arranged so that students can get additional knowledge in bioinformatics. Suggestions to arrange the chemicals in relatively better and ordered way as well as procuring them in advance so that they may be available during the wet lab experiments.
- Organization of seminars in each semester has also been proposed.
- Provision to clean the utility room, washroom, toilets etc. at regular intervals without fails have also been made.
