Suggest suitable mechanism to reduce industry-institute gap in terms of course content: Advance instrumentation subject is good but the lab is of BE standard and do not meet the subject contents. Fiber sensor & communication subject should have lab also. Any other thing you want to mention: When students enters in 2nd year of ME course they lack creative thinking for project. I think this area should be resolved in first year by some form of assignment or project. Course fees is also very high so good gate score candidate do not opt for ME course in Bt Mesra.
