She went on and on and on with the given subject without bothering about the student's grasping. There was a sense of fear and unapproachability during all of her classes.	Firstly, this was a relatively tougher subject and on top of that, instead of trying to help us learn, the concerned faculty kept a boundary in between. 17	0590400758032	2	2	2	2	2	Since the course was really tough, the teacher didn't help us out accordingly. She refused to share any kind study materials and even refused to record the class. Only few students managed to be attentive. So somehow we managed to learn from them. And she used to be very rude all the time, because of which we were scared to ask any questions. I think she should learn the way of teaching from her co-professor Dr. Mani Mohan.

5	0210380983584						Sir, was really good at explaining the concepts, as well I really appreciate the way he had planned to take the lectures since September , such that, even if the end semester exam was preponed, his portions and quizzes were all completed before hand and there was no last minute rush. He had explained all the topics very clearly, and provided good reference materials as well.

1	0230380909518						Enjoyed studying the subject. Very interactive and wonderful teacher.	
2	0230380909536						The instructor is punctual, teaches with a lot of passion. It has however felt that he is insensitive and brash in his dealings. I am a serving Colonel in the army age- 48, with 25 years of service. Despite always announcing that I am Colonel Wahee while interacting in class this gentleman, he always chose to overlook this fact, on purpose and addressed me as Sandeep. This would not have been a issue in a western country since there a 5 year old addresses a 25 year old as Tom/ Dick/ Harry. This is however not the case with the indian culture, a person has to be given his due. It has left a bad taste from the otherwise wonderful experience of mine attending College while in his late fourties, for the first time(primarily due to the fact that I am a Ex-NDA entry).I feel strongly about the issue hence have found it prudent to mention the same.	This is a very vast Open Elective subject being learnt by the student. The scoping of the syllabus needs to be done. In its present state it provides purely theoretical inputs to students and hence becomes a series of routine, series of PPT based lectures.
