Do you have any suggestion regarding the improvement of the programme: Yes/ No   
 If yes, please mention the suggestions

Please do include proper syllabus course structure relevant to the higher education competitive examinations. The relevant course structure will help us to pursue the various fields we are interested in. Being the limited course structure it has restricted the learning area for the faculties as well as students.

Any other specific comments:

CBS should have been implemented way before 2015. The course structure is not relevant plus we are not getting the syllabus as per competitive examination. Moreover, this programme is giving any opportunity for campus selection to companies for job applications.
