Technical Club: Electronics and Communication

Phase 1: Setting up the Team (21st May to 22nd July)

The Technical Club of BIT Patna came into existence on 20th May, 2019 as on paper. Following this, the official facebook page, instagram page and its official gmail account was created on 21st May.

The foundation of the club was laid by Aditya Kumar (7th Semester, ECE) and it has been established under the Mentorship of Dr. Ritesh Kumar Badhai. Also, the presidency of the society was taken by Sarthak Kumar (5th Semester, ECE).

Phase 2: Awareness Creation

Inorder to create awareness we launched two online events namely, **The Utopian Writer** and **Insta Decoder**. Both of these online events were sponsored by E-Stationary.

Event Description:

1. **The Utopian Writer** (22nd July - 25th August)

This event was based on content writing and digital marketing skills. Each participant had to describe his/her utopian view of the world in about 500 words. There was a total of 11 articles that passed the plagiarism test and was published on the facebook page of the club.

2. **Insta Decoder** (25th July - 20th August)

Insta decoder was a live hosted event on Instagram, where a question was posted sharply at 10pm every Friday and Monday and the followers/ participants had to answer. The quickest and apt wins the game. It had been one of a very engaging event and we had a leap of a hundred followers on Instagram.
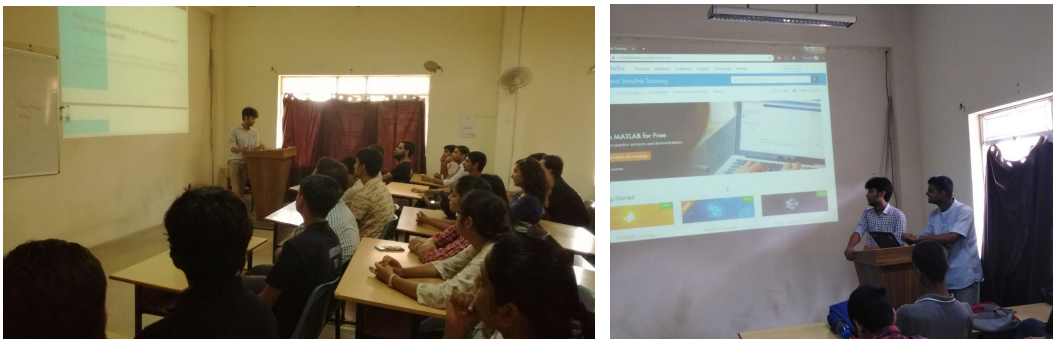

Phase 3: Recruitment (1st August - 7th August)

We conducted a test for selecting members from 2nd year on 1st August, 2019. There was a total of 124 registrations for the test and 84 out of which actually took the test. This was followed by a short interview with the best 40 of these and we selected 26 members from 2k18 batch by 7th August.

Phase 4: First Event

We had our first event on **10th August** titled as '**Introduction to Research Paper**' . We created awareness about the importance of research papers during the undergraduation.

This event was followed by an official Orientation to the 2nd year members which was taken by Sarthak Kumar on the same day.

Phase 5: XorDium

We structured our XorDium, the inaugural fest on **24th August**. The inauguration ceremony was followed by two events namely, Engineers' Paradise (Science Exhibition) and Eureka! (PaperPresentation) on the same day.

Engineers' paradise and Eureka! Witnessed 12 teams and 9 teams respectively.

Also the winners were awarded for their participation and every participant was offered certification. The prize distribution ceremony was separately held on **13th September.**
